SHOULD BE ABOLISHED

The state publicity commission, after exhausting the appropriation from the last legislature, continues in its endeavor to secure free publicity from the press of this state. The attempts, however, have been unsuccessful and it appears that the famous commission will soon be drawing its last salary, for the coming legislature, after investigating the accomplishments of the two years will undoubtedly place the commission on the political shelf where it rightfully belongs.

Nevada appears to have been blessed with many creations in and around the capitol since this state has been in existence, but the publicity bureau is the cream of the entire bunch. Its chief aim appears to be securing publicity for the individual members connected with the commission as was evidenced by the special session of the legislature.

CHEAP PUBLICITY

For every divorce granted a bona fide resident of Nevada in the state courts, it is claimed that ten decrees are awarded to non-residents who have complied with the six months' restriction for the sole purpose of securing relief from domestic troubles. The tax payers are maintaining the courts and the only results obtained from the foreign invasion of dissolute divorce seekers is the cheap publicity that has made Nevada the laughing stock of the nation.

Ten years ago this state contained a bare 40,000 population. Today the population is double the old figures and the increase can be attributed to the rejuvenation caused by the discovery of Tonopah. People were attracted to Nevada by legitimate methods, and as soon as the state laws are changed and the statutes purged of the easy divorce regulations, a new era of prosperity will dawn on this commonwealth. Cheap publicity may attract a crowd to a vaudeville show, but it will not attract the right class of people to Nevada.

Every large sized city in Nevada boasts of a chamber of commerce or some like organization. There appears to be something lacking in Tonopah.

The manner in which the Americans are breaking records at the Olympic games in Sweden, is not surprising, when it is considered that the record breakers are Americans.
